

Why Do Marine Vessel Owners or Marinas Use Our Service?

- Improved safety
- Assurance that your electrical and mechanical systems are functioning properly
- Insight for appraisal regarding damage assessment
- Outstanding insurance documentation
- Predictive maintenance can be planned and budgeted, reactive maintenance can be costly in many ways; up to and including life threatening
- Early detection and location of water intrusion and/or moisture issues
- Hull assessments for defects, or faults
- Repair work validation
- Augment vessel condition appraisals & marine inspections for vessel sale transactions
